## EXPERIENCE

---

### Frontend Developer

Jul. 2025 – Present

*Nyvora - Remote*

- Developed the front end of a custom web app using React and Tailwind CSS.
- Collaborated with backend developers and designers to build responsive, user-friendly UI components.
- Integrated REST APIs and handled state management for smooth client-side functionality.

### Web Developer

Sept. 2024 – Jul. 2025

*Freelance - Remote*

- Built full-stack web applications and landing pages for clients using React, Next.js, and Supabase.
- Handled both frontend and backend development, from planning to deployment.
- Implemented user authentication, database design, and API integrations for scalable solutions.

## PROJECTS

---

### NoteMe | *Next.js, Supabase*

- Web application that allows users to send and receive anonymous notes
- Utilize server action with Next.js
- Implement authentication and database

### Github Card Generator | *Next.js, Github API*

- Generate custom github card for profile readme
- Utilize api routes with Next.js
- Allow users to customize the card's theme, colors, and layout

## EDUCATION

---

### St. Anne College Lucena Inc.

*Bachelor of Science in Information Technology*

Lucena City, Quezon
