## EXPERIENCE

---

### Full-Stack Developer

Jul. 2025 – Nov. 2025

*Nyvora — Remote*

- Built responsive, production-ready UIs using React and Tailwind CSS, improving usability across desktop and mobile.
- Integrated REST APIs and managed client-side state for real-world features.
- Improved UI responsiveness and application reliability through clean, maintainable code.

### Web Developer

Sept. 2024 – Jul. 2025

*Freelance — Remote*

- Built and delivered full-stack web applications for clients using modern JavaScript frameworks and backend technologies.
- Implemented authentication, CRUD systems, and third-party API integrations.
- Deployed and maintained applications, handling end-to-end development independently.

## PROJECTS

---

### UpClass | *Next.js, Supabase, UploadThing*

- Built a full-stack LMS with authentication, role-based access, and real-time chat
- Used Supabase for database, and real-time features
- Implemented Server Actions and file uploads for learning resources
- Deployed to Vercel with production-ready architecture

### Github Card Generator | *Next.js, Github API*

- Built a public API-powered tool using Next.js API routes
- Integrated GitHub API to dynamically generate stat cards
- Added theme, layout, and color customization for end users

## EDUCATION

---

### St. Anne College Lucena Inc.

Lucena City, Quezon

*Bachelor of Science in Information Technology*

*Sept. 2022 – Present*

- Competed in OpenIT Codefest Hackathon (2025, Round 1)
- Competed in OpenIT Codefest Hackathon (2025, Round 2)
- Competed in DICT Hack4Gov Regional (2025)
